

Drift eliminator AOK 130-37/B

New inovated drift eliminator type AOK 130-37/B maximizes the drift removal for crossflow cooling towers.

Type AOK 130-37/B

Material	PVC
Number of pieces in block	10 pcs
Connection type	Distance holder A
Material of distance holder	HDPE
Weight of the slat	0,46 kg/m ²
Weight of the distance holder	0,032 kg/pc
Maximum operation temperatures	from -50 to +60 °C
Number of slats in m ²	27
Number of distance holders in m ²	44
Total weight of 1 m ² pack	13,8 kg
Length of drift eliminator slat	according to customer
Packaging – pallets (blade lenght x 750)mm	650pcs of blades
